Attack On Titan: The Beginning Box Set (Volumes 1-4)

Synopsis

In this post-apocalyptic sci-fi story, humanity has been devastated by the bizarre, giant humanoids known as the Titans. Little is known about where they came from or why they are bent on consuming mankind. Seemingly unintelligent, they have roamed the world for years, killing everyone they see. Collecting the first four volumes of the phenomenally successful 'Attack On Titan' in a slipcased edition, this is an introduction to the brutal and immersive world of the Titans.

Customer Reviews

Great set! It came in perfect condition. For many of those who have never read the manga, the contents inside them are nearly exactly the same as it is in the anime. The only major difference is the order that some sequences occur in. So if you start worrying that some parts may be missing, they're not! You'll just get to them eventually. Hajime has a very unique style that is unlike regular manga, so it does take some getting used to. But it still is very well written and good to enjoy whenever you want to see Attack On Titan, but don't have the time to watch it. Or if you just want to read the manga because the manga is amazing! (I also got this as a group order with the fifth volume, it was one of the options. Go do that too.)

Excellent-quality set that comes in a sturdy cover. Very nice (black and white) printing quality. My son and I are fans of the anime TV show and wanted to get this to see how good it was...the quality of the art is fantastic.

I bought this for my 12 year old son as an "end of the year" present and he loved it! The books presentation is very nice. It has a sturdy cover and looks like you bought it at a book store- no tears or issues with shipping. The books also arrived sooner than expected- you always have to love fast shipping!

I watched the first season of the anime and I couldn't wait anymore! I got these to pass the time and I couldn't be happier. They came a day early, which was nice, and they are read "the authentic manga way" which I love. The case for the books is shiny and has more of a plastic feel than the regular book holders. The books themselves are great quality. Definitely worth the money!

I got this set as a Christmas gift for my grandson and he read them all in record time. Now I have to find more books in the series.

Got this two days earlier than expected and it was such a great. Took me around an hour to finish the first part alone. Definitely worth the price. It's also a solid read. Cannot wait to see how things pan out with Eren, Mikasa and Levi.

I am extremely excited to give this away as a gift to someone who is a huge fan of A.O.T. The books are in perfect condition and there is plastic to protect them too. Shipping was fast, and there is nothing wrong and I have zero complains

I gave this set to my 14 year old nephew and he loved it. He was always a reluctant reader, but seems to love reading these.
