# Children Of The Light: The Rise And Fall Of New Bedford Whaling And The Death Of The Arctic Fleet

## **Synopsis**

Everett S. Allen, through diaries, letters, and newspaper accounts of the period, follows the Quakers from Plymouth Colony to New Bedford, Massachusetts, where these "children of the light" lived and founded an enormously lucrative whaling industry and elevated it to an almost holy activity ordained by God for the enrichment of the "chosen." Allen recounts the full story of a famous 1871 Arctic disaster, in which thirty-two vessels in the New Bedford whaling fleet, carrying 1200 officers and crew, found themselves trapped in gale-driven pack ice. The shipwrecked victims were miraculously rescued without a single loss of human life. The damage to the fleet, however, was something from which New Bedford never fully recovered.

## **Customer Reviews**

Beautifully written history of a long ago whaling industry: the boats, animals, places and the peoples who were immersed in and effected by this industry during the 1800's. This book describes a large geographic area, and people of diverse cultures and economic situations in an orderly, understandable way. I had a hard time putting it down at times. The only part I passed over was the chapter detailing the process of reducing a whale to useable, sale-able products (of which there were many at the time).

One of the best histories of whaling written. This book, by a New Bedford native with family ties to the whaling business, provides a harrowing account of the loss of the arctic fleet in 1871, and puts in context of the settlement of New Bedford by Quakers, and the birth and growth of the whaling

industry.

The book was as described and in very good condition. Also delivered as promised.

A very good historical acct. I recommend.

Great book for a New Bedford native.
