Customer Reviews

This book was great. It was basic enough that my 6 year-old could read it to me. The pictures that were used were beautiful. If you like the TV show "How it's Made" you will like this book. My son is obsessed with anything that has wheels and he loved this book! I was given this book by the publisher in exchange for a honest review. The opinions expressed are my own.

Great information and photos presented well for 4-6 year olds. I use it in my AMI 3-6 year old class.
