Meg And Jim's Sled Trip (Books To Remember Series)

Synopsis

A book for beginning readers, pre-K through age 8 from Flyleaf Publishing's Books to Remember series. Meg and Jim speed down hills and slide over snow drifts in this delightful winter's tale. Laura Appleton-Smith's reality based story and Carol Vredenburg Pointek's classic watercolor illustrations follow Meg and Jim through freshly fallen snow as they enjoy the drifts and hills produced by a recent storm. The text is carefully written to be readable by children with beginning reading skills. Supplementary Learning Cards available from Flyleaf Publishing introduce the book's vocabulary and build young readers' skills and confidence.

Customer Reviews

I understood that this book is one of a series that can help teach children to read more effectively. However, my daughter and I both thought that it was simply fun to go through over and over, just on its own merits. The illustrations were great and can't help remind the adult reader of their own childhood as well. I am buying 10 more just for gifts for friends with toddlers who want to get a leg up in reading skills.

Love this series of books. How great to find a series of phonics readers with beautiful illustrations and realistic fiction stories. I'm collecting them for my classroom.

This is a good book to teach your kids a bit about the snow if they haven't seen it. It also has

excellent drawings and is easy to read.
