ABC Universe (AMNH ABC Board Books)

Synopsis

From an astronaut in space to Voyager, yellow dwarf, and zenith, this ABC board book opens up the entire universe to children! Created in tandem with the American Museum of Natural History, it takes kids on a photographic journey through comets, flares, and planets like Jupiter, and introduces them to black holes, supernovas, telescopes, and more. Perfect for the youngest astronomers.

Customer Reviews

ABC Universe American Museum of Natural History in New York City Publisher - Sterling Children's Books Ages - 2-5 Favorite Features - Great photos of space and spacey things! I love the way they found something "spacey" for each letter of the alphabet Sturdy board book - will hold up to little ones reading it! I love the info included with each item - making it more than just an ABC book! Sterling Children's Books says; "In collaboration with the American Museum of Natural History in New York City, Sterling Children's Books is excited to present ABC Universe (April 2015), the upcoming addition to our beloved oversized AMNH ABC Board Books collection. From astronaut and black hole to yellow dwarf and zenith, this stunningly photographed guide to the alphabet opens up the entire cosmos to children. With extra-large letters to encourage finger tracing and visual

memorization, as well as informative descriptions of all 26 terms, ABC Universe takes kids on a photographic journey through comets, flares, and planets and introduces them to supernovas, telescopes, space probes, and more. Perfect for the youngest astronomers! For any parent tired of traditional ABC board books ABC Universe is just the thing for them."I found this ABC book to not be the "typical" ABC book. Yes, it has a page for each letter of the alphabet and yes, it has an "item" for each letter of the alphabet. But, this ABC book is about space - in an of itself, this is unique! Plus, with the info given on each item, it is interesting - truly interesting for grandparents/parents to read - or an older sibling to read. Even children who know their ABC's will enjoy ABC Universe!
