Customer Reviews

Such beautiful photos! As the other reader mentioned, the small sections of info are very suitable for children (even 12 years old). My kids and I enjoyed it. I would have given it 5 stars if it's not because of a topless picture on an earlier page which I covered up.

Good pictures with lots of detail. Overall a good book for a range of ages, especially beginners.

Gave this as a gift to a child, and they apparently really liked it....
